The Hendricks Family 842 Coventry Road Cleveland Heights, OH 44118

Dear William and Carol,

I am writing to you not as your minister asking for a donation, but as your friend and fellow traveler in this congregation we have built together over these twenty years. You know this church. You know what it means to a family when the children's choir director learns your daughter's name on her first Sunday. You know what it means to have a community that shows up at the hospital, at the graveside, at the kitchen table.

Building Our Future is not a building campaign. It is a commitment that this congregation will still be here - accessible, welcoming, thriving - for the next generation of families who need exactly what we have needed.

The physical facts are these: our 1924 sanctuary needs structural reinforcement. Our education wing cannot accommodate wheelchair access. Our choir loft staircase is not safe for our older members. These are not cosmetic repairs - they are the infrastructure of ministry.

We have set a goal of $2.5 million. To date, sixteen families have pledged $1.1 million, and we are deeply grateful. But to reach our goal, we need lead gifts from families who understand what this congregation means and are in a position to help define what it becomes.

I would love to share the architectural drawings over dinner - I think you will be moved by what Braverman and Associates has designed. There is a naming opportunity for the new education wing that I believe would be meaningful to your family.

Would you be willing to meet in November? I will call next week to find a time that works.

With gratitude and in faith,

Rev. Colette Mullins
Rector, St. Genevieve Community Church
