Personal Reset Plan

Notes to myself after the hard stretch a couple of years back. Keep the boundaries that pulled me out of it.

Daily

- Lights out by 10:30, up at 5:45, the Belle Isle loop before the office wakes up
- Vitamin D, the iron supplement, magnesium at night
- Two cups of dark roast before nine, then water

Weekly

- Telehealth check in, keep it on the calendar
- Sunday afternoon with Mama in Mexicantown, no work talk

Care shows up as preparation here, not as pushing through. Guard the sleep first, everything else follows.
