Letter of Inquiry, Creative Youth Development

Submitted to the Hartwell Foundation on behalf of the Detroit Youth Arts Alliance. We request consideration for a two year program grant to expand west side after school arts programming for youth ages 10 to 18.

The Need

More than four hundred young people enroll with us each year, and demand on the west side outpaces our current capacity. The new Livernois Avenue site lets us reach neighborhoods that have had no nearby arts home for a decade.

The Ask

- Two teaching artist lines for the new site
- One site coordinator
- Materials and instruments for visual arts, music, and film

Why It Serves Our Kids

Every dollar passes through one question, how does this serve our kids. The answer here is more seats, steadier mentors, and a second building where a young person can find their voice.
